

S222 KIT : Plate bearing equipment

STANDARDS : CNR N. 146 METHOD A

The plate bearing test equipment, with 100 kN capacity and 1 dial gauge, includes:

- **S222-01** Hydraulic jack 100 kN capacity, complete with hand pump, rubber pipe with fast connector, set of extension rods of different lengths, carrying case.
- **S222-02** Pressure gauge 0-100 kN, div. 0.5 kN.
- **S226-05** Load plate Ø 300 mm.
- **S226-12** Device for centre dial gauge measure, with spherical seat.
- **S222-03** Datum bar assembly, 2.5 m long, telescopic, aluminium made, adjustable in height, complete with base supports, plumb and spirit level. Packed separately.
- **S377** Dial gauge 25 x 0.01 mm
- **S226-16** Articulated dial gauge support with adjustment device.

Weight: 60 kg approx.

S222-KIT

Spare parts :

S222-01 Hydraulic jack

S222-02 Dial pressure gauge

S226-05 Loading plate Ø 300 mm

S226-12 Device for centre dial gauge

S226-16 Articulated adjustable dial support

S377 Dial gauge, NF, BS

S222-03 Bar

S377

Accessory :

S223-01 Pressure gauge 0 - 50 KN for 100 KN plate bearing

S223-01
