

S209 KIT : CBR Machine

STANDARDS : EN 13286-47, ASTM D1883, BS 1377:4, AASHTO T193, CNR UNI 10009, NF P94-078

Load is applied through a meckanical jack and handwheel. Upper beam can be adjusted in height.

Foreseen of fast approach device of the base plate.

The S209 KIT CBR machine comprises:

- **S209-01** CBR laboratory frame
- **S212-01** CBR penetration piston
- **S370-10** Load ring 50 kN capacity
- **S376** Dial gauge 10x0.01 mm
- **S212-03** Dial gauge holder S210-02 CBR Rate indicator S374 Brake Device

Dimensions: 430x380x1180 mm

Weight: 80 Kg approx

S209-KIT

Accessories :

S209-01 CBR Laboratory frame

S210-02 CBR Rate indicator

S212-01 Penetration piston, CBR

S212-03 Dial gauge holder

S370-10 Load ring 50 KN

S374 Stem brake device

S376 Dial gauge, ASTM, EN

S210-02

S370-10

S374 & S376
