

A019 : Chloride and sulphate content

STANDARDS: BS 812:117 | BS 1377:3

Used to estimate the chloride content of aqueous solutions in sand and fine aggregates.

- **A019-01** QUANTAB Chloride Titrator Strips, type 1175, range 0.005% to 0.1% (30 to 600 ppm) Na Cl. Pack fo 40 strips.
- **A019-02** QUANTAB Chloride Titrator Strips, type 1176, range 0.05% to 1% (300 to 6000 ppm) Na Cl. Pack of 40 strips.

Used to determine the sulphate ions in aqueous solutions of sand and fine aggregates.

- **A019-03** SULPHATE TEST STRIPS, detection range 200 to 1600 mg/l. Pack of 100 strips.
